- Includes fuel, maintenance, and repairs (except damages caused by renter)
- Does not include operator unless indicated above. Does not include mobilization and demobilization. (Quoted based on location.)
- Renter shall supply a secure location for the equipment.
- Equipment, like welding machines and compressors, do not come with tow vehicles. If one is required we can provide a pickup at the rate listed above.
- If equipment is rented bare, then a lease agreement must be executed.
- Rates are based on a 50 hour week. Usage in excess of 50 hours per week or 200 hours per month will attract additional cost.
- Omzet Belasting (sales tax) will be an additional 8.5%

CCCG will do everything possible to minimize breakdowns and to repair them quickly. However, we cannot be responsible for cost or expenses incurred by the renter as a result of a breakdown. The sole remedy is for the equipment to be taken off rent.
