### **SAFETY**

We believe that excellence in safety is equally important to a successful project as quality and productivity. Our commitment to safety remains steadfast and is put into action in every aspect of our operations. Workplace safety has always been a strong element of our culture in every project and every sector of our workforce. Standard safety practices are inherent in new hire, ongoing employee training and pre-job safety planning. Additionally, continued safety analysis is executed at every stage and task-change of the project.

### **QUALITY**

- 600+ Base Weld Procedures Maintained covering P-1 through P-45
- Quality Program Updating & Implementation by Full Time Quality Control Manager
- Field QA/QC Certified Inspectors
- "Job Specific" Procedure Development
- Complete Quality Documentation Package developed for Every Project
- ASME & NB U, S & R Stamps
- AISC Certification

### **TEAM APPROACH**

- Utilize Critical Path Specialists
- Provide Strong Technical Expertise
- Take a Systems Disciplined Approach
- Offer Emergency Response
