

VACANCY

CCC Group is an internationally ranked general contractor providing a broad scope of construction, maintenance, and fabrication services to various industrial markets throughout the U.S. and in select foreign regions like the Caribbean. We are dedicated to performing work to the highest standards, coupled with striving to exceed our clients' expectations to deliver solutions based on our expertise, backed by superior safety and quality principles. Through our regional office in Suriname, we successfully carry out several construction projects for the local and regional market with the highest management, quality, and safety standards. To strengthen our Project Executive Organization, we are currently looking for a suitable candidate for the following position:

MECHANICAL ENGINEER

Duties and responsibilities

- Provides mechanical design engineering support in an advanced manufacturing environment
- Designs and builds necessary tooling, assembly fixtures, and various mechanical systems
- Acts as project supervisor in cases where design engineering efforts are outsourced
- Recommends and implements equipment and process modifications to improve production efficiencies, manufacturing techniques, and production yields for existing products
- Initiates, proposes, and accepts responsibility for the success of engineering projects
- Interacts with planning and execution personnel to ensure that design requirements are adhered to

Knowledge, Skills, and Competencies:

- Comfortable with basic construction fabrication, processes-oriented design, and documentation ability is essential
- A good judgement on task and job prioritization. Familiarity with Project Management Professional (PMP) is preferred.
- Highly self-disciplined with strong follow-through and closure competence. Plans to meet objectives.
- Excellent debugging and problem-solving skills are a must.
- Familiar with Tank, Piping and Process Engineering

Qualifications and other requirements:

- Bachelor's degree in mechanical engineering with 5 years of professional experience in design engineering preferred
- Proficient with CAD software
- Developing as-build drawings

Company Compensation

- Attractive salary and benefits compatible with the local market.
- Opportunity for career growth and development.
